In case of special condition of application, take the confirmation of safety into account and then use it; in case of doubt in reading this information and related data, contact us before using.
- It is hazardous in error assemble and operation of compressed air and its accessories; so, while selecting the product, the related personnel of design, assemble, operating and service should possess sufficient knowledge and experience, and follow normal operating procedure, in order to maintain safe operation and good effect.
- The safety notice is made according to ISO 4414; pneumatic fluid power and JSI B 8370 general requirement of air system.

※ The safety notice , if change anything , excuse we don't notify.

This product suitable for application in general industrial equipment; adhere to the following caution while designing, assembling, using and maintenance.

Hazard

1. Please never use in following application
 - Use in operation, delivering and management of the appliance for the purpose of human life and body.
 - Use in operation which rise obvious "Danger" and safety concern to human life and body.
 - Special for safety purpose, situation with impact of safety to human life and body
2. Confirmation of safety shall avoid the following conditions which cause safety impact to human and damage of equipment
 - Operation of machine, device should note to the drop of driven object or race at the rotation radius and operation range cause injury of human and damage of equipment.
 - Operation of machine, device should note the air supply source and poor power supply and interruption and cause injury of human and damage of equipment.
 - When restarting the machine, device may cause object flying out and cause injury of human and damage of equipment.

common
caution

Warning

1. Please never use in following situation
 - In outdoor dusty condition.
 - Avoid chemical, corrosive and inflammable gas; avoid sea water, high temperature place in surrounding.
 - Exceed the condition in the specification of the product.
 - In the place tend to receive rigorous shock impact, which affect the quality and stability of the product.
2. Please don't make any modification or disassemble to the structure, function of the product
3. Shut off the power switch and air source properly before service and maintenance, avoid consequent hazard and damage of product.
4. Avoid consequent hazard and damage of product while assembling and operation.

Caution

1. Pay attention to the cleanliness of the pipeline while laying the pipe, avoid dust, dirt and leak proof tape been sucked into the pipeline, affect the operation performance of the product.
2. There are itemized cautions for various product, please contact our sale personnel if any doubt arouse.
